

Narika product name:

Terminal Pole (Pack of 10pcs)

Product Description:

Connector post fixed on a base (Pack of 10pcs)

Catalog Number:

B10-6255-10

Overall advantages to users:

- Easy to use as a branch point in an electric circuit.
- Essential accessory when trying to build an electric circuit exactly as shown in a circuit diagram.
- Stable and easy to handle because of the base.

Specifications

- Size: approx. 50 x 50 x 26mm

Keywords: Electric circuit

Benefits to users:

● To all users:

- Pole portion is high (long) enough to connect up to five (5) alligator clips at one time, which leads to the possibility of building various type of electric circuit.

● To teachers:

- Better storage.
- Easier equipment management.

● To Students:

- Easily connect with electric circuit in accordance with the circuit diagrams.
- Easy to compare a diagram (on their textbook) and an actual electric circuit they build based on the diagram.
