

Narika product name:

Holding Rod for BeeSpi V

Product Description:

BeeSpi V Adaptor (Holder)

Cat. Number:

S77-1321-W1

Overall advantages to users:

- Specially designed adapter (holder) for BeeSpi V.
- Secure BeeSpi V to any retort stand at any desired angle or height, whatever experiment you wish to carry out with slope, dynamic cart, free-fall motion etc.

Benefits to users:

- **To all users:**
 - Even more experiments are to be available in combination with BeeSpi V speed measurement light gate.
- **To teachers:**
 - Shorter experiments preparation time.
 - Unlikely to get lost among other types of holding rods when storing thanks to its unique shape.
- **To students:**
 - Thanks to attaching the BeeSpi V to the retort stand with BeeSpi V adapter, BeeSpi V can be fixed at any angle and position in the space above the bench. Leading to shorter total time needed for experiments from preparation to clean-up.
