

Narika product name:

Thermometer Holder

Product Description:

Through-hole type holder for
thermometer/rubber tube

Catalog Number:

T80-2537-W0

Specifications

- Material: Polypropylene (main body), Silicon rubber (gripping section)
- Heatproof temperature: 120°C
- Applicable size:
 - Thermometer: Up to 7mm in outer dia.
 - Rubber tube: Up to 10mm in outer dia.

Keywords:

- Heating experiment

Overall advantages to users:

- Holder for thermometer/rubber tube that can be clipped on e.g. beaker.
- Built-in through hole can hold a rod-like thermometer of up to 7mm in outer diameter or a rubber tube of up to outer 10mm in diameter.

Benefits to users:

- To all users:
 - Easy to attach with any container such as a beaker because of the clip-on design.
 - Stable enough to secure students' safety during their heating experiment.
